[Easy] [Web] Where Can My Robot Go?

Where do robots find what pages are on a website?

Hint:

What does disallow tell a robot?

[Easy] [Forensics] Simple Steganography

Think the flag is somewhere in there. Would you help me find it?

Hint-" Steghide Might be Helpfull"

[Medium] [Miscellaneous] Ambush Mission

Hi, i can't tell you my name since now i'm in a mission. In case to arrest our fugitive target, our team had been intercepted communication between the target with his fellow and found this image (https://mega.nz/#!TKZ3DabY!BEUHD7VJyq_b-M22eD4VfHv_PPbNw2m7CZUfMbveZYw). It looks like they are going to meet in specific place, but we still don't know the time yet. Can you help me?

[Hard] [Cryptography] The Simpsons

Ya know, I was thinking... wouldn't the Simpsons use octal as a base system? They have 8 fingers... Oh, right! The problem! Ummm, something seems odd about this image...

[Hard] [Web] AudioEdit

I made this cool site for editing audio files. Can you exploit it?
